DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9, 12-13, drawn to a projection lithography system, classified in class 355, subclass 67.
 - II. Claims 10-11, drawn to a projection system having a “Zerozon”, classified in class 355, subclass 75.
 - III. Claims 14-16, drawn to a curved mask, classified in class 430, subclass 5.
 - IV. Claims 17-18, drawn to a projection lithography mask made by contact/non-contact lithography process, classified in class 430, subclass 311.
 - V. Claim 19, drawn to a projection lithography scanning system for imaging a curved mask onto a curved substrate, classified in class 355, subclass 47.
 - VI. Claims 20-24, drawn to “A Zerozon”, classified in class 355, subclass 75.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-VI are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions have separate utilities such as projecting images on curved surfaces, using a curved mask, or curved substrate for used in a lithography system, a process for manufacturing a projection mask by contact/non-contact lithography process; a projection scanning system for controlling of defocus; a “Zerozon” for supporting a mask or serving as a zero-power optical device. See MPEP § 806.05(d).

Art Unit: 2851

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung Henry V Nguyen whose telephone number is 571-272-2124. The examiner can normally be reached on Monday-Friday (First Friday off).
